The screenshot displays the Twilio SendGrid dashboard for user BHAVYA SHREE G. The left sidebar contains navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The main content area is titled 'Welcome, BHAVYA!' and includes a sub-header 'Send your first emails with Twilio SendGrid'. Below this, a section titled 'Create a sender identity' provides instructions: 'Before sending email, you'll need to create a sender identity. There are two ways to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.' Two buttons are present: 'Create a Single Sender' (highlighted in blue) and 'Authenticate a domain instead'. To the right, a diagram illustrates the sender identity concept, showing an email header with 'Your Business' as the sender and '<jane.doe@your_business.com>' as the email address. A blue arrow points from the text 'Your sender identity is the "from" email address your recipients will see in their inbox. Learn more about this.' to the 'Your Business' field in the diagram. At the bottom right, a Windows watermark reads 'Activate Windows Go to Settings to activate Windows'.
